

A close-up photograph of pine play nuggets, which are chunky, reddish-brown wood chips. The nuggets are irregular in shape and size, with some showing the natural grain of the wood. They are piled together, creating a textured surface.

# PINE PLAY NUGGETS

Our chunky 30-60mm sized pine play nuggets are fully playground certified BSEN 1177 2008 making it an ideal play safety surface with soft landing. It has good drainage properties, and is frost resistant. Due to their size, the Pine Nuggets will naturally last longer than the smaller graded Play Barks. Pine Nuggets can also be very effectively and attractively used as an ornamental long lasting garden bark mulch, with ericaceous plants especially enjoying its natural low pH level.

## Product Benefits

- Long lasting
- Rich attractive colours
- Suitable for use on borders
- Clean and free draining
- Easy to spread and maintain
- Produced from 100% natural and environmentally friendly sources
- Attractive appearance
- Available bagged or in bulk loads
- Minimal dust and Fines
